What if ...

THE BUSINESS MASTERS PROGRAM

...there was a way you could achieve a level of success in your business well beyond any expectations? What if it was much easier than you thought?

IS THERE AN EASIER PATH TO SUCCESS?

As a business owner, you put your heart and soul into growing your business. Not an easy task, even in the best of times. There are always obstacles to overcome, issues to address and people to deal with. Sometimes it feels that no matter how hard you try, your business isn't moving or growing in the direction you want. You are not alone: many others share these concerns. While some wonder what to do, others take action.

In the Business Masters Program, an unexpected level of success is made possible by our unique combination of two bodies of knowledge. We start with proven business success principles and then add an unexpected, yet critical "secret ingredient" called "self." As it turns out, we often create our biggest obstacles to success. By uncovering and overcoming these self-imposed obstacles, you can reach a level of success you never thought possible.

With nearly a five-year track record, we have proven beyond any doubt that this unique program combination gives you the clarity and power you need to make your goals and dreams a reality.

HOW WE CAN HELP.

This powerful program is based on ancient wisdom and simple truths applied in the modern world. In a society overloaded with information, we bring a hopeful message that success does not have to be complex. Success is more a reflection of your own thinking and how you approach challenges. Combining this understanding with a disciplined approach to business growth unlocks your inherent wisdom and abilities and guides you in your quest to business success and personal fulfillment.

WHAT IS THE BUSINESS MASTERS PROGRAM?

The Business Masters Program is truly unique and vastly different from anything else in the marketplace. The program started as an experiment in 2007 to create a new way to achieve business growth. It led to the discovery that it is possible to shorten one's path to success and remove barriers in some very unexpected ways. While work and effort are required, achieving the highest levels of success is much easier than what one might think once internal barriers are identified and removed.

“I had high expectations coming into this, and they were significantly exceeded. I got deeper clarity on how to pursue my vision, and the tools to get there. Exceptional!”

— *Don Leininger*

“The insights and ideas I gained are so valuable that I am not only affected professionally, but personally. I am forever moved, touched and inspired. I get so much from every aspect of the Masters Group and use the insights & valuable ideas daily. Priceless!”

— Lisa Fine-Muth

WHO ARE THE MASTER ADVISORS?

Each Master Advisor has successfully completed a rigorous Master Advisors training program. They now want to share their passion and skills with those business owners they feel would appreciate and benefit most from this life-changing curriculum. Each advisor has designed their portion of the program – personal coaching and one-on-one support – in the way they think will work best. The Business Masters Program Description provides the details of their program.

HOW IS THE PROGRAM STRUCTURED?

The unique format of the Business Masters Program allows you to fully immerse yourself in the experience and get the most from your participation. Three times a year, you will attend two-day meetings in different locations. During these sessions, you'll have an opportunity to step away from your business to learn and grow in a collaborative, luxurious environment. These meetings provide a very rich opportunity for participants to interact and learn from each other, Master Advisors from all over North America and the Business Masters Program founders.

“The biggest obstacle to my success is me. I’m learning how to get out of my way so I can accomplish my vision.”

— *Michael Mouriski*

“I have learned to release some very deep seated fears that were holding me back. Looking forward to the future of unlimited success.”

— Fred Crooks

IS THERE ONE-ON-ONE SUPPORT?

Outside of the tri-annual meetings, you will work closely with your own Master Advisor to help ensure your success. The combination of learning from the larger group and one-on-one guidance and coaching from your Master Advisor makes for a truly innovative program. Our insightful Master Advisors will guide you on your path to self-actualization and quantum results for your business.

IS BUSINESS MASTERS RIGHT FOR ME?

If you have a strong desire to grow your business and are open to being coached, there's a good chance Business Masters is the perfect program for you. Those who commit to the program and courageously explore and let go of self-created obstacles are likely to achieve the best possible results.

You'll start by defining your goals, and then take a clear assessment of the current state of your business. From there, we will help you develop an action plan to reach your goals. Your Master Advisor will coach and support you as you implement your action plan, effectively walking with you down the road to success. At the tri-annual meetings, lead facilitators from Innovative Learning will help you develop critical personal skills, including how to identify and let go of self-limiting beliefs.

The Business Masters Program opens new possibilities for success while empowering you to truly become a business master.
